County Court.
Before Hon. A. F. Pemberton.
Thursday, Oct 7, 1869.
Daily vs. Gaston.—This was a suit to recover the sum of \$300, amount alleged to have been paid defendant by plaintiff for certain shares in a coal company, which sum, failing a certain contingency, was to have been refunded plaintiff. Drako, Jackson and Aikman for plaintiff; Mr Bishop for defendant. This case was continued from a previous sitting. Decision reserved till Tuesday next.

FROM NANAIMO.—The steamer Sir James Douglas, Capt Clarke, arrived from Nanaimo and way ports last evening, bringing about twenty passengers, some live stock and a considerable quantity of farm and dairy produce. We regret to learn that Mr Beaumont of Maple Bay, has within a week lost two of his children by diphtheria. There is to be an Indian Agricultural and Industrial Exhibition held at Cowichan on the 20th inst. Quite a number of useful articles have been contributed for prizes. The object is to encourage the Indians in improving their farms and manufactures of various kinds. The movement is being got up under the management of Mr Lomas, Indian Missionary. The movement is a very praiseworthy one and we wish it every success. The Rev. Archdeacon Reece will give a Harvest Home dinner on the 13th, to which he has extended a general invitation.

FOR THE ECUMENICAL COUNCIL.—The Rt Rev Bishop Demers and Rev Father Segers will sail to-day in the Active en route to Rome to attend the Ecumenical Council. In the absence of the rev gentlemen, Rev Father Kirley will conduct the affairs of the Diocese. The Council will meet on the 8th December and it is believed will prove one of the most brilliant gatherings the Holy City has ever known. The flock of the reverend gentlemen, and their many friends in other denominations, all join in wishing them a pleasant journey and a safe return.

THE NEW MINT.—While the American Government are looking about the Island for stone wherewith to build the new Mint, they may as well take a look at the hydraulic limestone that abounds in the same favored locality, and particularly at the immense beds that lie on either side of Victoria harbor. Lime burned from this stone is pronounced the most tenacious known, and well suited for use in the most solid as well as positively dely earthquakes. Call and examine the article before purchasing elsewhere.

BLACKWOOD, for September, is before us. It contains a capital paper on "The winding up" of the late session of Parliament; also, a very interesting critique on Mill's essay on "The subjection of women." A paper on "The limitation of enlistment and army reserves" is also readable, while the story entitled "A year and a day" is continued with full average interest, although part V is not altogether free from objectionable phraseology.

THE QUARTZ MILL.—The 4-stamp quartz mill for Cariboo was shipped by Millard & Beedy yesterday on board the Enterprise and will be forwarded immediately to Williams Creek. It is designed with this mill to test some of the quartz leads in the Upper Country, and should the result prove satisfactory a new era in mining will dawn on the Colony.

H. M. S. TERRIBLE.—A private letter received here states that Her Majesty's steam frigate Terrible, 19 guns, Capt. H. Barle, has been ordered to this station. The Terrible (we observe by the Times' Naval and Military column) returned on the 8th ult from Bermuda. She is a paddle-wheel steamer.

THE ACTIVE will sail at 7 this morning for San Francisco. Thirty-two passengers were booked up to last evening—just one-half the number the steamer brought on her upward trip. In freight, the Active will carry away cranberries, furs, hides, merchandise and old bottles, a full cargo. She will return here direct in the course of a fortnight.

COURT OF APPEAL.—A numerous and influential signed petition to the Governor, asking for the establishment of a Court of Appeal, was circulated yesterday. The object of the memorial commends itself to all classes, and to none more forcibly than the present occupants of the Supreme Court Bench.

REV FATHER HART. for several years prominently known as a most devoted worker in the Catholic Mission in this Colony, leaves us to-day for Marysville, California, where he will henceforth reside.

PRESENTATION.—Mr John Dickson was last evening presented with a handsome gold-headed cane by Messrs J S Drummond and E B Marvin, on behalf of the Deluge Engine Company.

TREASURE SHIPPED.—The following treasure was shipped yesterday: Wells Fargo & Co, \$14,232; Bank of British North America, \$46,198; Bank British Columbia, \$41,618. Total \$102,048.

THE steamship Gussie Telfair is due to-day from Portland via the Sound and Nanaimo.

The steamship George S. Wright sailed for Portland at noon yesterday, carrying a dozen passengers and a mail. Her return is looked for on Friday of next week.

The Bates Troupe are coming over by next trip of the George S Wright, to play at the Theatre.

COMOX OYSTERS, in sacks, were shipped by the Active for San Francisco.

COAL SHIPPED.—The coal shipped last month from Nanaimo reached 4178 tons.

The Big Cauliflower—Letter from the Farmer who Grew it.
FROGMORE, October 5th, 1869.
EDITOR BRITISH COLONIST.—In your issue of Tuesday morning you have an item about a fire cauliflower raised by me and ask, why was it not sent to the Exhibition? I will answer your question (Yankee-like) by asking another: Why was the Enterprise so much ahead of time? I really intended to have sent the cauliflower, as well as a number of other things—such as a cabbage 41 lbs, a parsnip 27 inches long, squash and vegetable marrow rotting on the ground of enormous size, some very fine flax and hops and several other things; but the Enterprise went so hurriedly that I could not possibly get them on board. Next year I hope to be more fortunate, and with a better state of cultivation and perhaps a little manure I may be able to do still better.
W. H. LADNER.

THIRTY years ago the present Emperor of the French expressed in his famous work entitled "Napoleonic Ideas," the following opinion on the subject of American and Russian influence:
"I see at the present day only two Governments which fulfil well their providential mission. These are the two Colossuses which exist—one at the extremity of the west, and the other at the extremity of the east world. While our old European centre resembles a volcano which consumes itself in the crater, the two nations of the east and the west march without hesitation on the road of improvement—one of them through the will of one man, the other through liberty. Providence has committed to the United States or America the charge of peopling and subduing to civilization all that immense territory which extends from the Atlantic to the Pacific Ocean, and from the north pole to the equator. Their Government, which is a simple administration, has had up to the present time but to practice the old adage: *Laissez faire laissez passer*—let things take their course—in order to favor that irresistible instinct which urges the population of the United States toward the west."

The War in New Zealand—State of Feeling in the Colony.
From the London Weekly Register.
We are asked to publish the following letter which was received by a lady in Lancaster a day or two ago from a gentleman in New Zealand, who left England a few years ago to reside in that colony. The letter is dated Menzies, Hawke's Bay, New Zealand, May 6, 1869, and the writer says:
"This Northern Island of New Zealand is suffering all the horrors and apprehensions of war with a set of ruthless cannibals who are perpetrating atrocities on the helpless whites in the outlying and unprotected districts too atrocious for me to name, or indeed for humanity to conceive. All the male population in this province are under military rule or discipline, and we have to leave our peaceful pursuits and attend militia drills and at times forced marches and camp duty. If we do not get help from England, God help us! Massacre after massacre is taking place now on the east coast, again on the west—and our rulers are showing or acquiring a callous indifference to the atrocities committed by the Maori fanatics. Indeed, England is being accused of the same feeling, and her generous and humane conduct in the Abyssinian war is contrasted with her present passive sympathy for her subjects in New Zealand. A few weeks ago the European and friendly natives of a small thriving village thirty-seven miles from here, named Mohaka, were surrounded by the rebels and nearly the entire number massacred. When the Napiier militia arrived upon the scene the spectacle was too horrible to relate. In a few instances the victims were found clasped in each other's arms in death. Would that I could say this was the rule—not so, it was the exception. Here an infant disembowelled by the pigs—there a mother or aged female partially consumed by the fire and pierced with bayonet and tomahawk wounds; here a leg, there an arm, which in their benighted cruelty they had severed and cast away, for the loyal natives had been murdered and maltreated in common with the Europeans. Enough—I cannot continue the subject. The colony is rapidly being depopulated, and I cannot wonder at it."

THE New York correspondent of the Louisville Courier writes: I doubt if there be in New York two men whose characters as private citizens, and whose claims as members of society are more highly considered—apart from the admiration which is entertained for their professional talents and the tardiness which naturally follows in the wake of their wealth—than Edwin Booth and Joseph Jefferson. Either might go to Congress from his district and would certainly make a good Congressman. Both are rich. Jefferson's income this year will reach seventy-five or eighty thousand dollars. Booth's will hardly be less than that. Take this present engagement as a specimen. Jefferson gets five hundred dollars a night and all the receipts of the matinees. The house has been packed at every performance. The clear profit cannot be less than nine thousand and perhaps ten thousand dollars a week, of which Jefferson gets at least four thousand and upward. He has chambers in Seventeenth street; but as there are no rehearsals, he goes out to his place, twenty-four miles on the Erie road, every day. Saturday night he goes out and stays till Monday noon or afternoon. He has thirty or forty workmen engaged upon the grounds, and when he has done with them, it will be altogether the most charming country residence in America.

VICISITUDES OF FAMILIES.—There has just been published in London a new and remodelled edition of Sir Bernard Burke's "Vicissitudes of Families." Nothing more exemplifies the truth of the well worn maxim about truth being stranger than fiction than these stories of the historian. The great great-grandson of Margaret Plantagenet, the daughter and heiress of George, Duke of Clarence, only as far back as 1637, was a cobbler at Newport, in Shropshire. Among the lineal descendants of Edmund of Woodstock, Earl of Kent, sixth son of Edward I, entitled to quarter the royal arms, occur a butcher and a tall collector—who died in 1855; the latter a Mr George Wilmot, keeper of the gate at Cooper's Bank, near Dudley, who died in 1846. A few years ago Sir Bernard Burke found in a common pauper, at Dublin, the heir presumptive of a barony that is associated with the martial exploits of Poitiers and Cressy. In this new edition of "Vicissitudes" the author has removed much of the irrelevant matter of his earlier work, and made numerous additions to the present one, which make it a complete and most interesting record.

JEWS THAT MAKE CHRISTIAN BLUSH.—Some time ago we published an account of how a Jew, being a spectator of the procession of the Host around a church in Paris on Corpus Christi day, knocked down and beat an irreverent Gentile who insulted the clergy in the procession; and now we hear of another Jew acting the part of the good Samaritan to a poor Catholic priest in Florence. Since the confiscation of church property in Northern Italy, some of the clergy have been reduced to great poverty, and they are occasionally seen in the streets of the cities almost perishing for hunger. A few days since, writes the correspondent of an English paper, a poor priest fell fainting with inanition on the pavement of Florence. No one assisted him, until a Jew, indignant at the inhumanity of the bystanders, gave him a franc, and carried around his hit to the Christian crowd for alms to save one of Christ's priests from dying of starvation. Really, these Jews make Christians blush.—World.

THE PETTICOAT MOVEMENT.—Women's rights has broken out in a mild form in France. A number of restless females tired of hugging their chains and pining to assert their freedom, have met together in Paris and opened the campaign after the manner of the American specimens of a similar persuasion by a grand feed, in which several gave in their experience, and were followed by 'able and eloquent' male speakers, who have turned their attention to this business with a view of making money out of it. What a French woman is not capable of accomplishing is not worth contending for—so we may look to see La Belle France under petticoat government at an early day.

Strange Phenomenon in Central America.
The Panama Star of September 2nd has the annexed account of a strange phenomenon which occurred near the town of Apacanea:
At about noon on the 3rd of August, the atmosphere being heavily charged with electricity, there came down from the Volcano of Ahuachapan, near which the above town is situated, a dry whirlwind toward the place called Sisinapa, about five blocks distant to the southwest of Ahuachapan, and increasing in its course it finally became so large as to cover a circumference of thirty yards. This phenomenon, which appeared like an enormous and blackened column of the height of 200 yards, lasted fifteen minutes in some places, raising large logs of wood and the branches of trees that came under its control, and a vapor of thick smoke arose from the soil causing a fearful noise similar to the oft-repeated detonations of a heavy storm. This strange phenomenon, the majestic appearance of which made all the inhabitants tremble, lasted two and a half hours, and took the course of the road to Ataca leaving behind it openings in the woods and hedges, and even in the hard earth; and was followed by a heavy rain, which did not permit us to see the end of the monster.

A REMARKABLE FENIAN FUNERAL.—A remarkable Fenian funeral has taken place in Dublin. The remains of John Dalton, a blacksmith who had been in prison as a Fenian, were conveyed to Glasnevin cemetery by a procession of about two hundred men, walking in array. Each wore a green necktie, and some had green leaves in their hats. One hundred vehicles following contained women and children decorated in green many carrying bunches of laurel. At the graveyard the people fell on their knees unanimously and prayers were said, but not by a clergyman. The crowd then visited the 'memorial crosses of the Manchester martyrs.'

That freshness and beauty of complexion, so much to be desired, cannot be retained unless the female system is in a healthy condition, and free from obstruction. For those diseases peculiar to the female sex, whether in young or old, married or single, at the dawn of womanhood, or later in life, no other remedy produces so beneficial results as Dr Walker's Vegetable Vinegar Bitters. Its purifying effects add tone to the stomach, and invigorate the whole system.

FELL'S COFFEE has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains.
